Shun Tong 800W Woodworking Advertising Water-cooled Spindle Motor

 <p>弘阳数控® HONGYANG CNC</p>	model:	WH65 800W
	Dimensions:	Φ65
	Rotating speed:	24000RPM
	power:	0.8KW
	Voltage:	220V
	frequency:	400HZ
	Bearing:	3 bearings
	cooling method:	Water cooling
	Chuck nut:	ER11A
	Current:	/

1. Shun Tong 800W woodworking advertising water-cooled spindle motor should be used with the inverter. The specifications of the inverter should also match the parameters of the spindle motor. If not doing so, the spindle motor will get burned.
2. Before using, the water-cooled spindle motor must ensure that its cooling circulation system is working normally, and it is prohibited to use the spindle rotor without cooling water.
3. As the state of the high-speed grease inside the bearing will change during the storage and transportation, this [router spindle motor](#) should be run at a low speed during the first use.
